## Loganville Borough Mayor's Report – May 2024

### Issues/Concerns/Requests:

The week April 28<sup>th</sup> a young man from the Kirby Company stopped by my residence to solicit. Per usual, I asked the young man to see a copy of his solicitation permit, and after producing none, I informed him that he was in violation of the borough's solicitation ordinance (2014-03) and as he had none, I advised that he immediately depart the borough. I subsequently notified Borough Council (BC) of this after his departure.

### Mayor Report Summary:

- Pennsylvania State Police (PSP) Report: none received
- District Court Reports: none received
- Emergency Management (EM):
  - Fire Police Requests: none received
  - Weather Emergencies: none
  - Meetings/Training:
    - On Tuesday, April 16, I participated in the York County Planning Commission (YCPC) York County Hazard 2024 Mitigation Plan (HMP) Update Public Meeting. HMP Update comments are due by Wednesday, May 8.
    - On Friday, April 26, I participated in the Loganville Community Center dedication and open house from 4-7 PM with attending BC members where we provided tours and interacted with many Borough residents.
- Correspondence:
  - On Wednesday, April 3, I provided the BC President and Solicitor photographs and other pertinent information regarding violations of Winter Storm Lorraine Snow Emergency Declaration that occurred on Thursday, February 13, 2024.
  - On Monday, April 29, the BC President provided me a Safety Message (enclosure) from Republic Services, the Loganville's contracted waste service provider. The essence of the Safety Message is to remind residents: **DO NOT APPROACH REPUBLIC TRUCKS WHEN THEY ARE COLLECTING WASTE!**

- Correspondence (cont.):
  - A U.S. Department of Housing and Urban Development (HUD) letter dated April 23 was received on April 29 indicating that HUD's investigation is complete and that the complaint has been dismissed.
- Miscellaneous: none

Respectfully submitted,

ORIGINAL SIGNED BY

Eric J. Mueller  
Loganville Mayor/Deputy EM Coordinator, Loganville-Springfield Regional EMA

**Subject:** Safety Message

If you could post this on your website or facebook page we would appreciate it. We had a close call in one of our municipalities last week when a resident tried to throw some trash in the compaction area of the truck while our driver was dumping their cart with the automated arm. If the driver hadn't seen this and put the cart down while the resident was standing there throwing the item into the truck, it could have been a life changing or life ending incident.

In a township in South Central PA last week, Republic Services had a resident approach one of their trucks to throw something in the compactor area while our driver was operating the remote mechanical arm to empty the residents cart.

We cannot stress how dangerous this was and we need to express in the most serious way possible that this cannot happen for many reasons with resident safety being the most important. This is especially important to tell your children since school will soon be on summer break.

DO NOT APPROACH A TRUCK THAT IS IN THE ACT OF DUMPING THE CONTAINER INTO THE COMPACTION AREA.

DO NOT ATTEMPT TO GET THE OPERATORS ATTENTION WHILE THEY ARE OPERATING THE COMPACTION MECHANISM OR THE ARM THAT DUMPS THE CARTS

DO NOT ATTEMPT TO THROW ITEMS INTO THE COMPACTION AREA OF THE TRUCK

The last thing Republic Services or the municipality wants is for a resident to be injured or potentially killed in the process of Republic collecting a residents trash or recycling materials.

Thank you for your attention to this very serious safety concern.

Andy Warntz
